* The migratory population has been computed chiefly from the number of householders known to have escaped enumeration, owing to their having changed their residences between the time of the schedules being deposited and the time they should have been collected. No attempt has been made to form an estimate of unenumerated persons of whose existence no definite information was obtained.

POPULATION OF VICTORIA

Return showing the Estimated Population of the Colony of Victoria at the end of the Year 1892; also the Estimated Increase of Population and the Estimated Mean Population during that Year.

Year 1892.	Males.	Females.	Total.	Males.	Females.	Total.
Births registered	19,405	18,426	37,831	62,254	38,528	100,782
Arrivals by sea recorded	42,849	20,102	62,951			
Deaths registered	9,098	6,753	15,851	60,488	30,599	91,087
Departures by sea recorded	46,718	22,496	69,214			
Unrecorded departures by land and sea (estimated) ...	4,672	1,350	6,022			
Estimated increase during the year				1,766	7,929	9,695
Estimated population on the 1st January, 1892				606,035	551,643	1,157,678
Estimated population on the 31st December, 1892				607,801	559,572	1,167,373
Estimated mean population of the year				606,990	555,720	1,162,710

Note.—In this estimate of population allowance has been made for the unrecorded departures which have occurred since the Census of 1891 was taken. Such departures, between the date of the Census and the end of 1892, are estimated to have amounted to 9,254, viz., 7,188 of males and 2,066 of females. Had this allowance not been made, the population of Victoria would have apparently amounted at the end of 1892 to 1,176,627, viz., 614,989 males and 561,638 females.

[1] See footnote 2 to table "Value of Principal Articles Imported," *ante*.

[2] Wool from across the Murray passing through this colony for shipment in Melbourne has, since 1871, been included both in the Imports and the Exports. In 1871, and prior to that year, it was included in the Exports but not in the Imports.

NOTE.—This table has been compiled by the Government Statist from returns furnished each year by the Customs Department.

* The figures in this column express the proportion of wharfage rates paid into the consolidated revenue. Four-fifths of the wharfage rates received at the Port of Melbourne are retained by the Melbourne Harbor Trust, by which body the whole are collected.

† Including excise duty paid direct into the Treasury.

NOTE.—This table has been compiled by the Government Statist from returns furnished each year by the Customs Department.

* Including Post Cards.—† Including the Revenue derived from Postage, Commission on Money Orders, and Electric Telegraph. Since 1883 the Stamps used to denote Stamp Duty, Postage, and Fees have been made interchangeable, only one class of stamps for all purposes being now used. Rough estimates for the Postal Income were made for the three years ended with 1886, but since then it has been found impossible to make an approximately correct estimate for any year.—‡ The Expenditure is *inclusive* of the cost of Steam Postal Communication with Great Britain, and of the Subsidy for Construction and Maintenance of the Duplicate Telegraph Cable, &c.—§ Information for 1891 and 1892 not available.

[1] The items in this Table are summarized according to a principle agreed to at a conference of Government Statists of several of the Australian colonies, held in Tasmania in the month of January, 1875.—— [2] Including revenue from Beer and Tobacco Duties, amounting to £216,547 in 1881-2. The duties were first imposed on the 1st November, 1880. The Beer Duty expired by effluxion of time on the 31st August, 1882. The Duty on Spirits was increased on the 17th July, 1884.—— [3] Stamp Duties were imposed on the 18th December, 1879. Since the 1st January, 1884, the revenue from Stamp Duties has been estimated, in consequence of the stamps hitherto used to denote Stamp Duty, Postage, and Fees having been made interchangeable, and only one class of stamps for all purposes is to be used in future. The Inland Letter Rate was reduced from 2d. to 1d. on the 1st January, 1890.—— [4] Including interest on loans to local bodies for Waterworks.—— [5] For details of this item, see Supplementary Table, *post*.—— [6] Exclusive of £140,000 derived from the sale of the Melbourne Police Court.

HENRY HEYLYN HAYTER, Government Statist.

[1] The items in this Table are summarized according to a principle agreed to at a conference of Government Statists of several of the Australian colonies, held in Tasmania in the month of January, 1875.

[2] Including Governor's salary, and salaries of Ministers, Commissioners of Audit, Agent-General, expenses of Executive Council and Public Service Board.

[3] Including cost of the following Departments:—Chief Secretary, Shorthand Writer, Agent-General, Audit Office, Registrar of Friendly Societies, Treasury, Stores and Transport, and Government Printer.

[4] Including expenditure under the following heads:—Education, Government Statist, Observatory, Government Botanist, Public Library, Museums and National Gallery; Grants to Mechanics' Institutions, Free Libraries, &c., and Grants to Schools of Mines and Design.

[5] Including expenditure under the following heads:—Chief Medical Officer, Central Board of Health, Hospitals for Insane, Industrial and Reformatory Schools, and Grants to Charitable Institutions.

[6] Including £5,620 for surveys in Mallee districts, &c., to be recouped by lessees.

[7] The amounts entered under the head of Special Appropriations in 1885-6 and subsequent years—with the exception of £6,000 annually for salaries of the Railways Commissioners—were paid into the "Railway Construction Account," in accordance with the direction of the Land Acts 1884 and 1890 (48 Vict. No. 812, and 54 Vict. No. 1106, sec. 78), whereby it was provided that all moneys arising from the sale by auction of Crown lands shall be placed to a trust account, the amount standing to the credit of which should be available for the construction of railways. The total amounts paid out of the General Revenue towards the construction of railways up to the 30th June, 1892, was £2,803,740. By an Act passed in 1891 (55 Vict. No. 1213) the proceeds of land sold by auction have been temporarily diverted, from the 1st July, 1891, into the *Land Sales by Auction Fund* until the moneys so paid in shall amount to £1,084,750. The amounts entered under the head of "Votes" represent the working expenses of railways, except £500 in 1886-7, and £4,144 in 1887-8, paid towards construction.

[8] Exclusive of £50,000 recouped in 1885-6.

[9] Exclusive of School Buildings, Railways, Water Supply, and of all Public Works paid for out of loans, but inclusive of endowments of municipalities under the Local Government Act. The expenditure on the Port of Melbourne, included under this head prior to the 1st January, 1877, has since been paid out of the Harbor Trust Fund.

[10] The amounts under the head of "Special Appropriations" represent the net expenditure on account of Steam Postal Communication, including gratuities to masters of vessels, interest on Savings Banks deposits, and subsidy for maintenance of the cable from Port Darwin to Penang.

[11] Although the annual subsidy to the Mint is £20,000, portion of that sum has been repaid each year to the revenue.—See Table of General Revenue, *ante*, under the head "Mint Subsidy returned."

[12] The expenditure under the head of "Votes" represents interest and expenses in connexion with the Melbourne and Hobson's Bay Railway Debentures.

[13] Including a vote of £5,000 in 1881-2, of £8,000 in 1882-3, of £10,000 in each of the years 1883-4 to 1886-7, of £7,000 annually to 1889-90, £8,396 in 1890-91, and of £11,395 in 1891-2 to meet deficiencies in the Police Superannuation Fund.

[14] For details of expenditure from votes under this head, see Supplementary Table, *post*. Except £888 in 1886-7, £200 in 1887-8, £2,602 in 1890-91, and £4,000 in 1891-2, the amounts in the column for "Special Appropriations" are the unexpended balances of the Pension Fund (Schedule D, Part V.), repaid each year to the revenue.

[15] Including £100,000 in 1887-8, and £178,694 in 1888-9, towards the expenses of the Melbourne Centennial International Exhibition; also £149,984 in 1889-90 for advances to Shires for the erection of rabbit-proof fencing.

[16] Figures amended since last publication, the amounts now provided for by the *Land Sales by Auction Fund* having been deducted.

[17] Not including £471,900 in 1881-2, £18,000 in 1882-3, and £10,100 in 1883-4, expended towards the redemption of Treasury Bonds.

NOTE.—For items of expenditure out of Loans raised under various Acts for the purposes of Water Supply, Railways, Public Works and Buildings, and State School Buildings, see Table of Loan Account Expenditure, *post*.

* The Melbourne Harbor Trust was established under Act 40 Vict. No. 552, which came into operation on the 1st January, 1877.

† The figures in this line represent four-fifths of the Wharfage Rates at the Port of Melbourne, which proportion has formed part of the Revenue of the Trust since the 30th June, 1877. Prior to that date the whole of the Wharfage Rates were paid to the General Revenue of the colony.

‡ Exclusive of sums received as premiums on loans raised, amounting to £32,434.

§ Including expenditure from loans.

Note.—The figures in this table, which have been furnished each year by the Registrar-General, do not express the full amounts secured and released in each year; the reason being that the amounts are frequently not given, especially in regard to live stock, wool, and crops released, and in the case of which, although the mortgages or liens may have been paid off, the mortgagors seldom take the trouble to have the releases registered, as the securities relating to wool and crops lapse after the expiration of twelve months from date of the same.

NOTE.—The above classification, which has been in use sin 1886 in Victoria, was framed by the Registrar-General of England some years since, on the basis of the Nomenclature drawn up by a Committee of the Royal College of Physicians—the second edition of which was published in 1885. In order to facilitate the classification of the causes of death in Victoria according to this method, a nosological index suitable thereto has been compiled by the Government Statist, and was issued in the early part of 1887, which was followed by a revised edition in 1892. For further information respecting this classification, see *Victorian Year-Book*, 1886–7.

HENRY HEYLYN HAYTER, Government Statist.

Note.—In the above table, the deaths from each cause, recorded prior to 1886, under the old system of Nosology, have been re-arranged, so as to agree with the system now in use. The number of diseases under the new classification being considerably larger than under the old, it has not been possible to give the numbers under every cause of death The respective heads under which those diseases, recorded but not specially enumerated in former years, are now arranged are indicated in the following notes:—

(*a*) "Epidemic Rose Rash" (Class I., Sub-Class 1) and "Cellulitis" (Class VI., Sub-Class 11) included with "Other Diseases of the Integumentary System" (VI., 11).

(*b*) Under the head of "Septicæmia and Pyæmia" (I., 6) it is possible a few cases of "Mumps" and "Other Miasmatic Diseases" (I., 1) may be included.

(*c*) "Others from Vegetable Parasites" included with "Others from Animal Parasites."

(*d*) "Scurvy' (III.) is included with "Purpura" (IV.).

(*e*) "Lupus" (VI., 11) included with Cancer (IV.).

(*f*) "Anæmia, Chlorosis, and Leucocythæmia" (IV.) distributed over other heads, viz.:—Anæmia with "Dropsy" (VIII.), Chlorosis with "Diseases of Menstruation" (VI., 8), and Leucocythæmia with "Other Diseases of the Circulatory System" (VI., 3).

(*g*) Prior to 1886 "Diabetes Mellitus" (IV.) includes cases of "Diabetes Insipidus," now classed with Diseases of the Bladder" (VI., 7).

(*h*) "Atelectasis" (V.) included with "Debility" (VIII.).

(*i*) "Softening of the Brain" (VI., 1) and "Diseases of the Ear and Eye" (VI., 2) included with "Other Diseases of the Nervous System."

(*j*) "Laryngismus Stridulus" (VI 1) included with "Laryngitis" (VI., 4).

(*k*) "Epistaxis and Diseases of Nose" (VI., 2) included with "Other Diseases of the Respiratory System" (VI., 4).

(*l*) "Senile Gangrene" (VI., 3) and "Bedsore" (VI., 11) class under "Mortification" (VIII.).

(*m*) "Valvular Disease," "Hypertrophy of Heart," "Angina Pectoris," and "Syncope," classed as "Other Diseases of the Circulatory System."

(*n*) "Other Diseases of Larynx and Trachea" distributed over "Laryngitis" and "Croup."

(*o*) "Stomatitis," except in the few cases given, included with "Other Diseases of Stomach, &c."

(*p*) "Diseases of the Lymphatic System" (VI., 6) distributed over other heads.

(*q*) "Addison's Disease" (VI., 6), "Uræmia," "Hæmaturia," and "Disease of Prostate" (VI., 7) included with "Other Diseases of the Urinary System" (VI., 7).

(*r*) "Pelvic Abscess" and "Perineal Abscess" (VI., 8) included with "Abscess" (VIII.).

(*s*) "Caries, Necrosis" (VI., 10) included with "Others" of same Sub-Class.

* A large proportion of Deaths from Diphtheria and Croup are ascribed to both causes conjointly, and it has often been difficult to decide under which head any particular case should be classified. Latterly, however, the rule has been to consider all cases of Diphtheritic Croup as Croup.

† Including Hæmoptysis.

‡ These deaths occurred in the Sanatorium, Williamstown, in 1884, but were not registered until 1885.

§ One of the cases in 1882, 2 (including 1 "Vermin-bite") in 1887, but not one in 1891 or 1892, were due to insect bite. The numbers in other years were not noted.

‖ Including one case of justifiable homicide (shot by police).

NOTE.—In the above table, the deaths from each cause, recorded prior to 1886, under the old system of Nosology, have been re-arranged, so as to agree with the system now in use. The number of diseases under the new classification being considerably larger than under the old, it has not been possible to give the numbers under every cause of death. The respective heads under which those diseases not specially enumerated in former years are now arranged are indicated in the following notes:—

(*a*) "Epidemic Rose Rash" (Class I., Sub-Class 1) and "Cellulitis" (Class VI., Sub-Class 11) included with "Other Diseases of the Integumentary System" (VI., 11).

(*b*) Under the head of "Septicæmia and Pyæmia" (I., 6) it is possible a few cases of "Mumps" and "Other Miasmatic Diseases" (I., 1) may be included.

(*d*) "Scurvy" (III.) is included with "Purpura" (IV.).

(*e*) "Lupus" (VI., 11) included with "Cancer" (IV.).

(*f*) "Anæmia, Chlorosis, and Leucocythæmia" (IV.) distributed over other heads, viz.:—Anæmia with "Dropsy" (VIII.), Chlorosis with "Diseases of Menstruation" (VI., 8), and Leucocythæmia with "Other Diseases of the Circulatory System" (VI., 3).

(*g*) Prior to 1886 "Diabetes Mellitus" (IV.) includes cases of "Diabetes Insipidus," now classed with "Diseases of the Bladder" (VI., 7).

(*h*) "Atelectasis" (V.) included with "Debility" (VIII.).

(*i*) "Softening of the Brain" VI., 1) and Diseases of the "Ear and Eye" (VI., 2) included with "Other Diseases of the Nervous System."

(*j*) "Laryngismus Stridulus" (VI., 1) included with "Laryngitis" (VI., 4).

(*k*) "Epistaxis and Diseases of Nose" (VI., 2) included with "Other Diseases of the Respiratory System" (VI., 4).

(*l*) "Senile Gangrene" (VI., 3) and "Bedsore" (VI., 11) classed under "Mortification" (VIII.).

(*m*) "Valvular Disease," "Hypertrophy of Heart," "Angina Pectoris," and "Syncope" classed as "Other Diseases of the Circulatory System."

(*n*) "Other Diseases of Larynx and Trachea" distributed over "Laryngitis" and "Croup."

(*o*) "Stomatitis," except in the few cases given, included with "Other Diseases of Stomach, &c."

(*p*) "Diseases of the Lymphatic System" (VI., 6) distributed over other heads.

(*q*) "Addison's Disease" (VI., 6), "Uræmia," "Hæmaturia," and "Disease of Prostate" (VI., 7) included with "Other Diseases of the Urinary System" (VI., 7).

(*r*) "Pelvic Abscess" and "Perineal Abscess" (VI., 8) included with "Abscess" (VIII.).

(*s*) "Caries, Necrosis" (VI., 10) included with "Others" of same Sub-Class.

* A large proportion of Deaths from Diphtheria and Croup are ascribed to both causes conjointly, and it has often been difficult to decide under which head any particular case should be classified. Latterly, however, the rule has been to consider all cases of Diphtheritic Croup as Croup.

† Including Hæmoptysis.

‡ These deaths occurred in the Sanatorium, Williamstown, in 1884, but were not registered until 1885.

NOTE.—The deaths occurring in *Hospitals, Asylums, &c.*, are shown separately, they having been eliminated from the sub-districts in which they were recorded. If these were distributed over the various districts, the deaths in each district would, of course, be proportionately increased.

* Included in these areas are parks, gardens, and other public reserves, which in Melbourne City cover an area of 1,723 acres, in North Melbourne of 9, in Fitzroy of 41, in Collingwood of 39, in Richmond of 190, in Prahran of 23, in South Melbourne of 482, in Port Melbourne of 80, in St. Kilda of 250, in Brighton of 167, in Essendon of 65, in Flemington and Kensington of 307, in Hawthorn of 15, in Kew of 634, in Footscray of 46, in Williamstown of 446, and in Northcote of 14. There are also 783 acres in "Remainder of District." The sum of the areas in all the sub-districts amounts to 5,314 acres.——† For alteration in the constitution of this municipality, see footnote (*) on page 32, *ante*.——‡ Including the Melbourne, the Homœopathic, the Alfred, the Women's, and the Children's Hospitals; the Austin Hospital for Incurables; the Metropolitan and Yarra Bend Lunatic Asylums; the Immigrants' Home, the Benevolent Asylum, the Infant Asylum, and the Home of the Little Sisters of the Poor, Northcote. For the deaths which occurred in each of these institutions, see special table on next page.

NOTE.—This table, which is supplementary to the preceding one, does not include all the public institutions in Melbourne and suburbs, but only such as have a high rate of mortality, and consequently would, if included, have a tendency to swell the general mortality of the sub-districts in which they are situated. In 1892 the deaths in all the principal public institutions—including, besides those enumerated above, gaols and penal establishments, industrial schools, orphanages, female refuges, &c.—numbered 1,480, particulars of which will be found in various portions of the *Statistical Register*. The numbers given are those of deaths *registered* during each year, and consequently may not agree exactly with those which actually occurred in the institutions during the same period.

* Deaths of infants born in the institution are also included.——† This Hospital was removed from Melbourne City to South Melbourne on 1st October, 1885.——‡ Partly in South Melbourne City.

METEOROLOGY.

⁂ The times of taking daily observations whereby the records of mean temperature and mean atmospheric pressure are obtained at the various stations are as follow:—Melbourne, Portland, and Wilson's Promontory, 6h. and 9h. a.m., and 3h. and 9h. p.m.; Ballarat, Cape Otway, Bendigo, Gabo Island, and Echuca, 9h. a.m., and 3h. and 9h. p.m. To these observations a correction is applied, in order to make the results equivalent to those derived from hourly observations. At Echuca the mean temperature is derived from the max. and min. readings.

Total	19,396	20,526,497	82,903

Note.—Pastoral and grazing area leases are granted for any period not exceeding fourteen years, and Mallee pastoral leases for any period not exceeding twenty years, from the commencement of the Acts, 29th December, 1884, in the former, and 1st December, 1883, in the latter case; whilst grazing licences are only of a temporary character (renewable annually), and are only granted for waste lands of the Crown not required under the principal sections of the Act. The Mallee pastoral leases, as the name indicates, are confined to the Mallee country, in the North-Western portion of the colony, which is placed under a special Act, viz., the Mallee Pastoral Leases Act. The lessees of grazing areas have the privilege of selecting (*i.e.*, purchasing under the deferred payment system on certain conditions) an area not exceeding 320 acres out of their lease for agricultural purposes.

* In 1863-4, 1864-5, and 1878-9, the yield of wheat was much affected by "rust."——† The tobacco crop in 1875-6, 1879-80, and 1890-91, 1892-3, failed in most parts of the colony.

* Of this area 121 acres are reported to have produced only 76 cwt. of tobacco, and 201 acres to have yielded no crop. The comparative failure of the crop this year is attributed to the disease called blue mould, which is stated to be due to a fungus closely related to that which causes the potato disease.

NOTE.—The items in this Table do not represent the whole area under the respective crops grown, but only of such as were taken cognizance of by the collectors. The minor crops are often raised in gardens, in which case the various descriptions would not be distinguished. They may be also grown upon allotments of one acre and less in extent, and these the collectors are not called upon to visit. The Table must, therefore, be looked upon as indicating the nature of certain crops grown in Victoria rather than the full extent to which those crops are cultivated.

Note.—In connexion with seventeen of these quarries there were stone-breaking (road metal) works, connected with most of which there were tar-pavement works.

* The figures in this column apply to purchased land only. Twenty-six of the stone quarries were on Crown lands, and in these cases no valuation of the land has been given.

† These particulars have been combined in accordance with a promise made to the persons supplying the information that the contents of individual schedules would not be published. One of the stone quarries to which they relate was situated in the city of Melbourne, and one in each of the following shires:—Berwick, Buln Buln, Colac, Keilor, McIvor, Stawell, and Strathfieldsaye.

NOTE.—The values given in this table are those of the land at the time of its being brought under the Real Property Act or Transfer of Land Statute by application or purchase. The present values are very much higher. This return has been compiled from information furnished year by year by the Registrar-General.

* This column presents a statement of the amount realized for lands sold, but the value of the few acres granted in each year without purchase is not included.

* As shown by the schedules.

† This large apparent surplus resulted from the fact that the declared assets in 1887 were largely made up of a debt of £570,597 set down as due by the Crown to the estate of W. R. Merry. Had this not been included, the declared assets, as compared with the declared liabilities, would have shown an apparent deficiency of £125,106.

‡ Of this amount £995,403 was paid or promised to creditors.

[1] The figures of Revenue and Expenditure are for the 12 months ended 31st December of each year until 1871, when the financial year was changed so as to terminate on the 30th June. The figures for 1871 are therefore for the six months ended 30th June, and the figures for subsequent years are for the twelve months ended 30th June.

[2] In addition to the quantity of land sold and amount realized within the year, the figures under the head "Crown Land Sales" represent, during each of the years after 1868, the total extent of, and amount paid on, lands purchased under deferred payments of which the payments were completed within the year, although such payments had extended over a series of years. The extent selected, of which the purchase had not been completed, is not included in the area sold. This amounted, at the end of 1892, to 5,993,512 acres. Lands granted without purchase, which amounted, up to the end of 1892, to 15,627 acres, are also excluded.

[3] Since the year 1864, a considerable quantity of wool has each year been imported into Victoria across the Murray, from the Riverina district of New South Wales, for transport by railway to Melbourne and shipment thence. Prior to 1872 no precise record of the quantity so introduced was kept at the Customs. It has, however, been ascertained that at least 13,000,000 lbs. of wool, valued at £972,000, crossed the Murray into Victoria in the year 1870, and the following amounts in the years named:—19,552,598 lbs., valued at £1,096,772, in 1872; 31,542,913 lbs., valued at £1,745,550, in 1873; 35,332,089 lbs., valued at £1,975,879, in 1874; 40,535,081 lbs., valued at £2,260,799, in 1875; 44,430,185 lbs., valued at £2,039,009, in 1876; 37,647,218 lbs., valued at £1,661,868, in 1877; 43,357,702 lbs., valued at £2,081,368, in 1878; 46,561,653 lbs., valued at £2,338,670, in 1879; 54,865,967 lbs., valued at £2,720,612, in 1880; 53,090,294 lbs., valued at £2,594,240, in 1881; 44,213,260 lbs., valued at £2,224,512, in 1882; 29,072,345 lbs., valued at £1,355,219, in 1883; 42,796,749 lbs., valued at £1,875,962, in 1884; 39,306,234 lbs., valued at £1,633,517, in 1885; 40,138,278 lbs., valued at £1,866,029, in 1886; 52,423,118 lbs., valued at £2,198,223, in 1887; 48,045,819 lbs., valued at £2,036,637, in 1888; 54,738,160 lbs., valued at £2,608,743, in 1889; 58,433,040 lbs., valued at £2,415,337, in 1890; 65,389,504 lbs., valued at £2,406,292, in 1891; and 57,031,431 lbs., valued at £2,107,838, in 1892.

[4] The quantities of flour, bread, and biscuit imported and exported are reduced to their equivalent in bushels, on the assumption that one bushel of wheat produces 45 lbs. of either of those articles.

[5] The births and deaths given for 1853 are all of which there is any record; but it is known that the figures considerably under-state the truth, and it is supposed that each in reality amounted to not less than 5,000. The deficiency has chiefly arisen from the fact that the system of registering births and deaths was entirely changed during the year 1853, and the new system was not at first properly understood. In consequence of this, and also owing to the unsettled state of the gold-field population, it is known that many children born were neither baptized nor registered, and many persons who died were buried without registration or funeral service.

[6] Post cards were first issued in April, 1876. They are included with the letters in this column.

[7] Prior to 1871 the expenditure was for the year ended 31st December. The figures for 1871 relate to the first six months only. Since that date they have been for the year ended 30th June—except as regards the Railway expenditure in 1876, which is for the eighteen months ended 31st December, and in the years 1877 to 1884, which are for the twelve months ended 31st December; and except as regards Country Waterworks expenditure, which for all the years prior to 1885 is for the years ended 31st December. The figures do not in any case include amounts expended by municipal governments.

[8] These returns are those of the Government and private railways combined, the latter of which were purchased by the State in July 1878. The returns of the former are, prior to 1871, for the year ended 31st December; in 1871 for the six months ended 30th June; in the years 1872-5 for the twelve months ended 30th June; in 1876 for the eighteen months ended 31st December; in the years 1877-84 for the twelve months ended 31st December, and subsequently for the twelve months ended 30th June. The returns of private railways are for the year ended 31st December up to the time they were purchased by the Government.

[9] Post Office Savings Banks were first opened in 1865. Hence the increase in the number of banks from that year. The returns for the Post Office Savings Banks are for the years ended 31st December, those for the ordinary Savings Banks are for the years ended 30th June.

[10] Until 1879 the figures did not give particulars of all the Friendly Societies in the colony, but only of such as furnished returns. For that and subsequent years the returns are complete.

[11] The increase in the number of telegrams, in 1870 and 1885, was consequent on a reduction in the rates.

[12] Including purchase-money of the late Melbourne and Hobson's Bay Railway Company's lines.

[13] For the first time telegrams on Railway service were not included.

[1] These amounts were received many years since. No Government aid has ever been given towards maintenance.——[2] Regular masters only. Visiting masters are not included.——[3] In connexion with the Melbourne Grammar School there are three council scholarships of the annual value of £21, for boys under 14, open only to members of the school tenable at it for three years; and two exhibitions of the annual value of £20, tenable for two years, open to the competition of boys proceeding to the Melbourne University, whose names have been for the two previous years on the school register, and who have passed the Matriculation Examination with credit. The Head Master offers for open competition, in February each year, two scholarships of the annual value of £30 and £25, and four exhibitions—two of the value of £15 and two of £10. The three senior scholarships and exhibitions are open to boys under 15 on 1st February every year; the three junior to boys under 13. There is also a "Witherby Scholarship," the holder of which claims exemption from school fees for three years. The school is now divided into two sides—Classical and Modern—from the Third Form upwards, the Modern side being arranged so as to provide continuous preparation for commercial or station life.——[4] A scholarship of the value of £60 per annum, tenable for two years, has been given by Mrs. F. W. Armytage, the conditions of tenure being that the holder shall be a resident student of Trinity College, Melbourne, and shall have been for two years previously a pupil of the Church of England Grammar School, Geelong. The Head Master receives one son of a clergyman of the Church of England as a resident boarder, exempt from all school fees and cost of residence.——[5] In connexion with the Scotch College, scholarships of the value of 10 or 20 guineas each are given to students who gain a satisfactory position in the class honour lists at the Matriculation Examination, such scholarships to be tenable for one year.——[6] In connexion with the Wesley College there is a scholarship called the "Draper Scholarship," which was established in memory of the late Rev. D. J. Draper, who perished in the s.s. *London*. It is of the value of £25, tenable for one year. Two other scholarships have also been founded by Mrs. Powell, to be called the "Walter Powell Scholarships," in memory of her late husband. They are of the value of £40 each, payable in two annual instalments of £20, and tenable on condition of the scholar pursuing his studies at the University. In addition there are the "Waugh," the "Watkin," the "Rigg," and the "Dare" Scholarships for the best boys in the several forms below the Fifth, together with the "Eggleston," and the "Corrigan" entrance scholarships, each of the value of 16 guineas, tenable for one year at the College. A strictly commercial side has been established, in which boys who are destined for mercantile pursuits can, if their parents so desire, be exempt from the study of Latin and French, other subjects fitting them for their future career being substituted.——[7] St. Francis Xavier's College was opened during the year 1878, and many of the scholars were transferred to it from St. Patrick's, of which it is a branch.——[8] These figures were furnished by the Education Department.

* It is probable that the figures in these columns do not always indicate distinct individuals, but acts of relief, and that a person relieved over-and-over again is the cause of as many entries as he is times relieved.

† These figures represent the number of families relieved.

NOTE.—The returns of some of the societies do not distinguish the sexes of the persons relieved, hence the sum of the males and females on the total line does not agree with the total of both sexes. The returns of receipts and expenditure represent the *net* amounts received and expended, exclusive of credit and debit balances, &c.

NOTE.—This Society does not aim to distribute charity, but ascertains by investigation whether applicants for relief are deserving of assistance, and thereby assures charitably disposed people that their sympathies are being properly exercised. It strives to induce co-operation between the charities, the recognition of the necessity of organization in the work of charitable institutions, and the compilation of records of value to the sociologist and philanthropist. It also strives to create a centre of intelligence and records in charitable work.

H. R. CARTER, Secretary.
